## Fitting: LED "Rectangle" Panel Light

40w power

Instructions:

Lets assume you already have suspended ceiling tiles in your office
Lets also assume that your ceiling tiles at 1200mm x 300mm

Step 1A - Remove 1x Ceiling Tile - *as picture*
Step 1B - The Rectangle LED Ceiling Light is = 1195mm x 295mm
Step 1C - If your removed tile is the same size - replace tile with this LED - that's it

Step 1D - **However;** IF your tile wider - You will need to cut the tile to pack around the LED
Step 1E - **Tip** - Either add 2x LED (If possible) or uses half tile and the LED
Step 1F - **Tip** - is advisable to avoid 3x shapes, as tile + LED always looks best!

Electrics:
First of all - It is recommended that a qualified electrician is utilised

Step 2A - Each LED Ceiling Light comes with its own bayonet fitting for power
Step 2B - Plug this bayonet fitting power plug, into each LED Light
Step 2C - Each bayonet power has its own transformer

Power Usage:
Always check the power usage for each purchased light

Step 3A - Once you have established the power usage for each LED Light (this is vital)
Step 3B - Supporting chart will tell you this

If creating 1x Light to 1x Power Switch

Step 4A - Connect the transformer cable (extension maybe required) to your Light Switch

If creating Several x Lights to 1x Power Switch

Step 5A - Double-check the power allowance for each LED Light (vital) - see chart
Step 5B - Now create a daisy-chain connection between each transformer
Step 5C - Finally, connect to the Light Switch (additional cabling maybe required)

Ceiling LED Light - Rectangle LED Light
