Clarelight 4xA3 Freestanding Display

The Clarelight™ LED display is our most **'Innovative & Most Sustainable' - 'Contemporary Tablet Styling' - Freestanding Display'**

Packed with features to help you create a high-impact display EXACTLY where it is needed.

Smart framed 4xA3 LED's simply slot into the sturdy frame - allowing swap panels in seconds

The LED lightpockets are manufactured using recycled material.

The Frame & Back Panel are manufactured from at least 80% recycled content.

The material is manufactured in the UK - further reducing the carbon footprint of manufacturing.

LED Panel Explanation:

LED's (4xA3) are powered via magnetised connectors - All connected by a single Power Transformer (hidden within the base)

Supplied as a flat-pack-easy-to-assemble (takes minutes to assemble) - No specialist installation required

Once assembled, simply plug the power transformer into your nearest power socket- and **that's it!**

Mind you, it would be a good to invest in a 'Surge Protector' for extra-peace-of-mind
