Fitting the Coloured Frames is very simple

1. Each Clip-On Frame has rear clips, these are set to allow either 1 or 2 frames (Front & Rear)
2. Clients could place 1x colour on one-side and another colour on the other side

Colours:

1. We can create your frames in a wide selection of colours, in fact 66x Colours!
2. However; we do believe "Black" is the most popular wanted colour

Unique Orders in a choice Colour:

1. When creating these displays they are laser cut from a large acrylic panel
2. This means, unique colours cannot be supplied as single items
3. Clients purchasing A4P or A4L - We can laser-cut a total of = 18x Pieces per panel
