Skylight - Flush LED Panels - (Installation Information)

Flush - Fitting

1. Suitable for existing suspended ceilings
2. Just simply remove your current ceiling tile
3. Then, replace with the LED Light
4. End result is a 'Flush' finish
5. Panel is 600mm x 600mm

Top Tip - No 1:

1. Pending on the age of your current metal ceiling frame
2. We recommend you clean / paint the metal framework

Top Tip - No 2:

1. If you don't already have suspended tiles
2. Seriously consider - Website Ref - Suspended-Mounts
3. Seriously consider - website Ref: Z-Brackets

Panels are ideal for - Dental Surgeries + Corporate Offices + Retail Outlets - they create a 'Stunning' & 'Dramatic Illuminated Eye-Catching System'
